

## Internet Safety Plan - Brainstorming Questions

### PLAN

- How will you monitor your students' computer use?
- How will you implement the AUP?
- How will you involve parents in your Internet Safety Plan?
- What roles will your students play when using the Internet? Will you designate students to be Internet Safety monitors?
- How would you get the school involved?

### LESSON

#### *Content*

- What information do you plan on presenting to your students?
- What information will you illustrate/present to help your students understand the importance of Internet Safety?
- What plan will you include to involve parental involvement?

#### *Audience*

- What background knowledge do your students have?
- How will you create your lesson to meet the needs of your students?

#### *Appearance/Presentation*

- How will you engage students into the lesson?
- What type of multimedia do you plan to use in your lesson?
- How will you integrate technology in your lesson?
- How will you implement the Internet Safety Rules in your lesson?
- How will your lesson be effective?
- How will you present the Internet Safety Rules to the students.

### STUDENT ASSESSMENT

#### *Pre-Assessment*

- How will you assess your students background knowledge

#### *Post-Assessment*

- How will you assess your student's understanding of the Internet Safety Rules?
