

Smart Notebook Tutorial

(Intermediate)

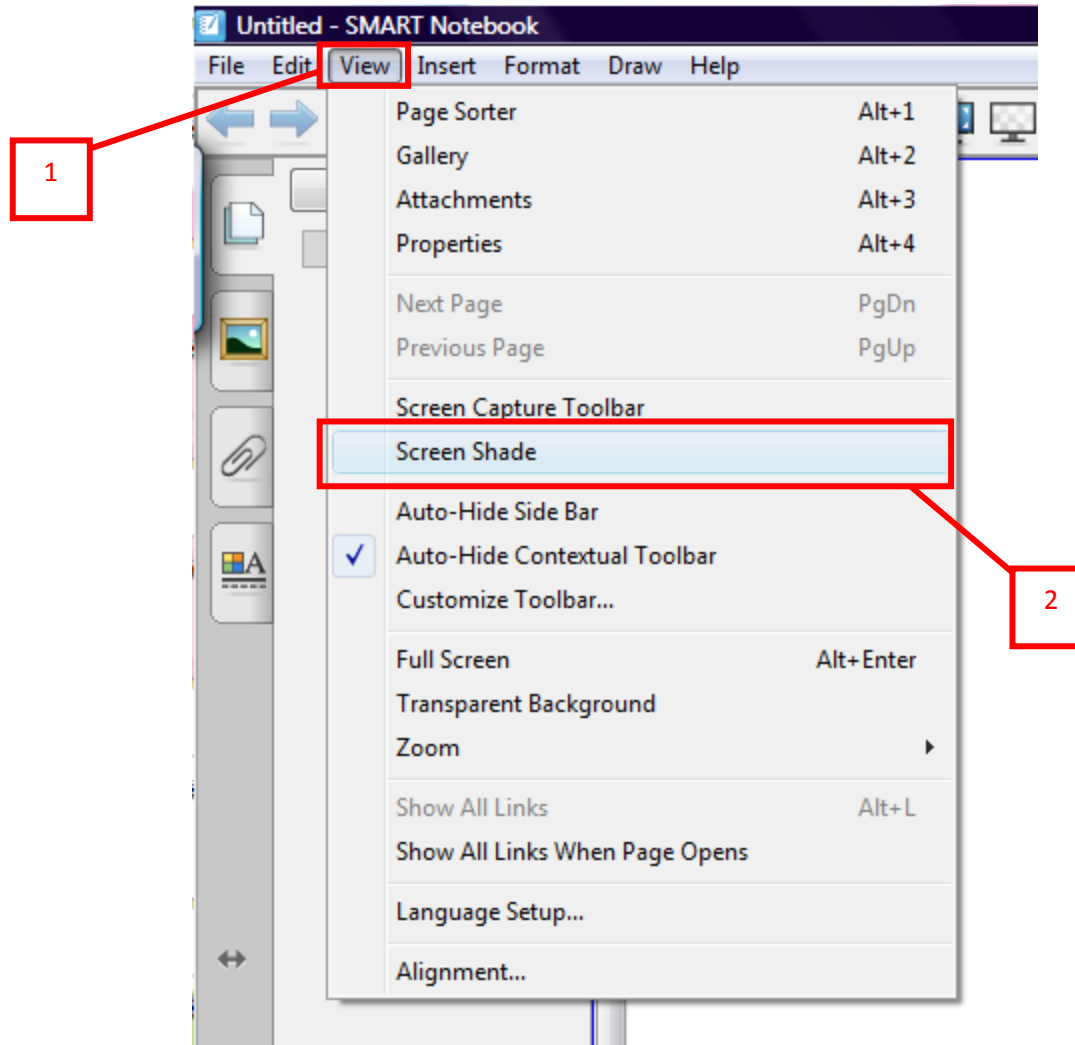

By MaryAnn Toledo

- In this tutorial you will be introduced to a couple of multimedia features in Smart Notebook.
Features that will be illustrated in this tutorial are:
 - Screen Shade
 - Question Flipper

- Screen Shade – This feature acts like a curtain that allows you to control how much of your page you want to reveal.
 1. Design your page.
 2. Once you have created your page click on View in the Menu bar and select Screen Shade. The screen shade will cover all of the content on your page.

3. The screen shade will cover all of the content on your page.

Numbers

- Each number has a digit.
- Some have more than others.

Original page with content before screen shade is applied.

Content is covered by grey colored screen shade.

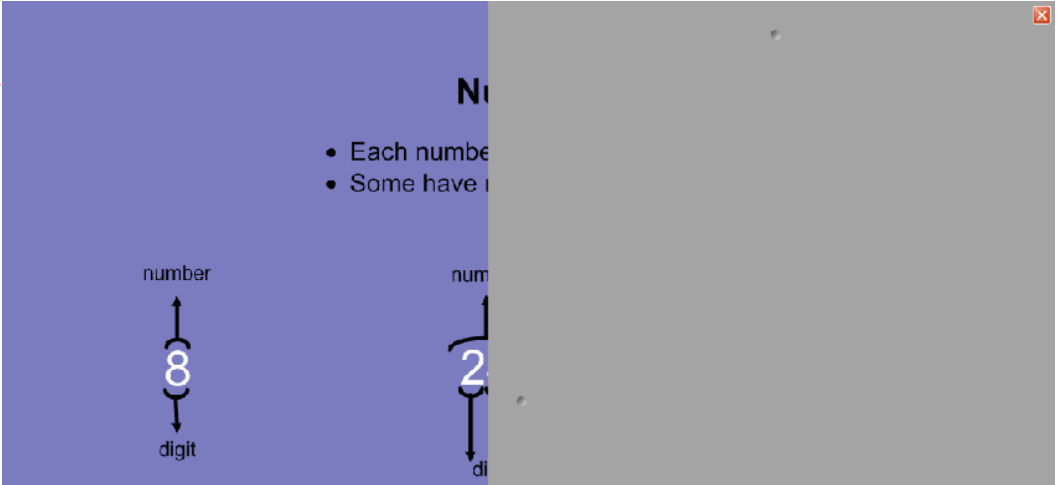

4. When presenting your page you will use the Screen Shade to slowly reveal your content. You can also control the direction you reveal your content by clicking and dragging the screen shade.

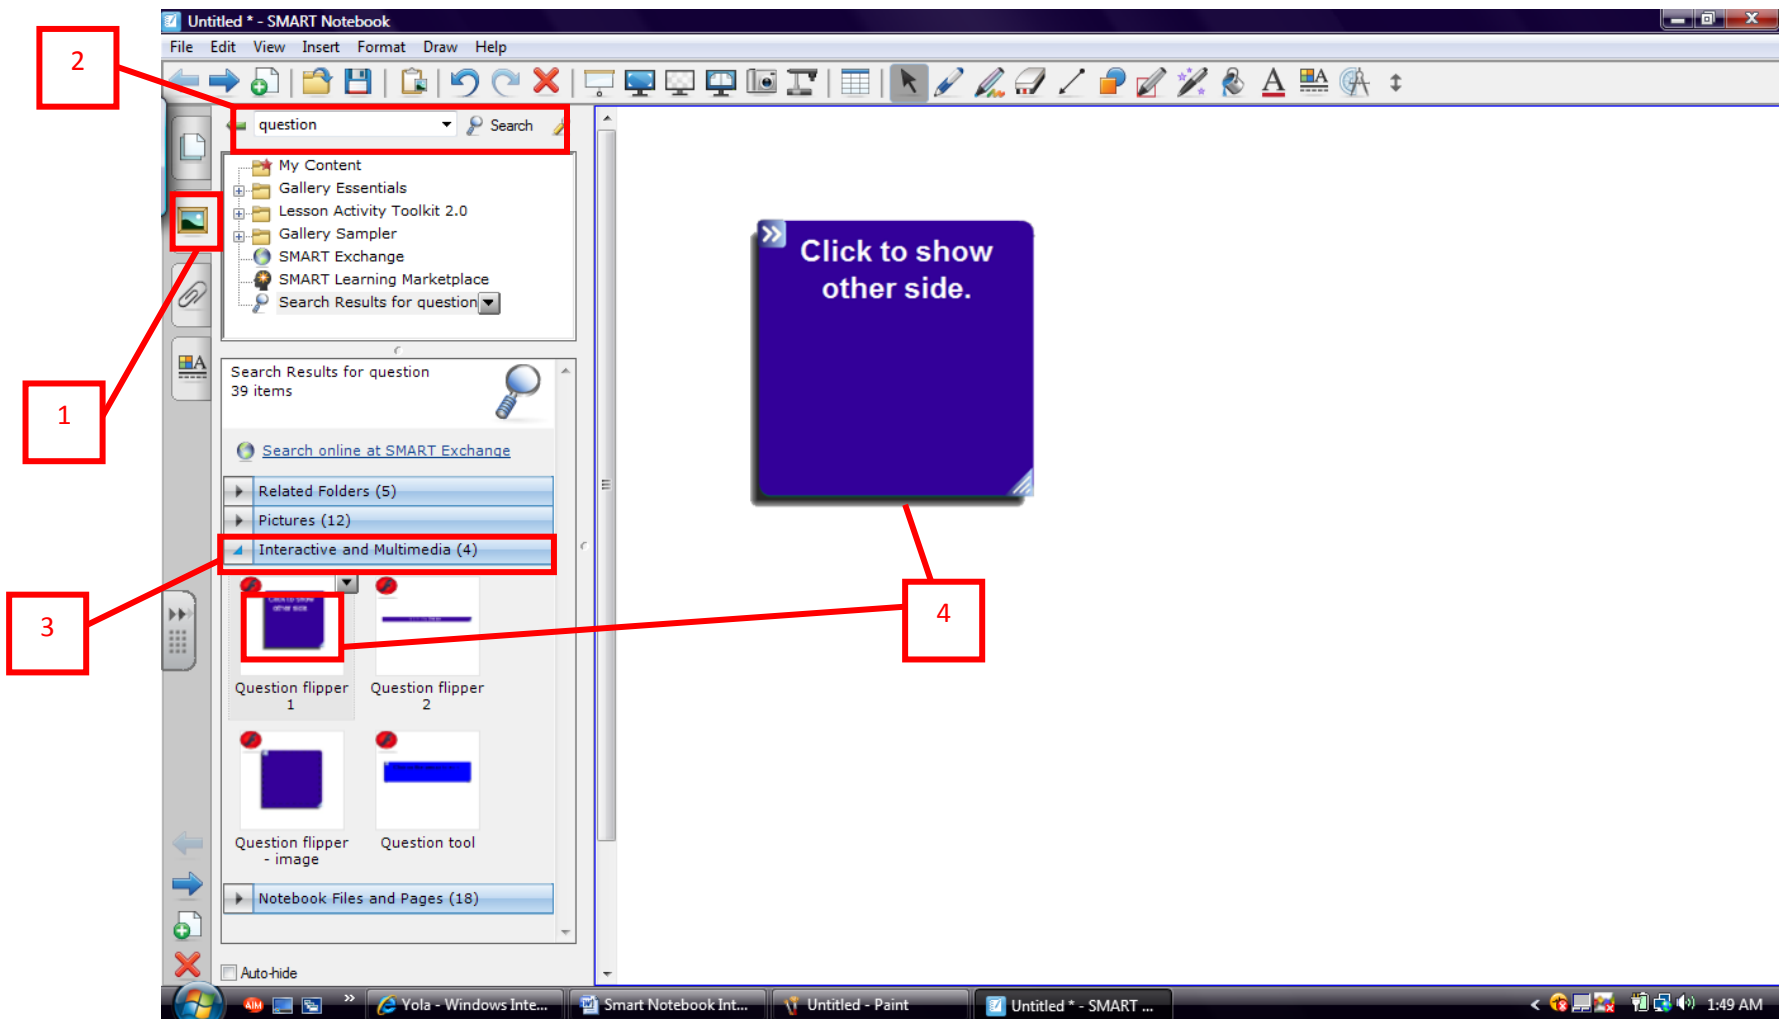

Revealing content by dragging the screen shade down.

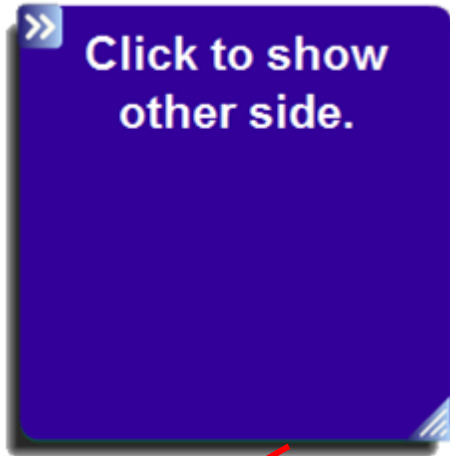

Revealing content by dragging the screen shade to the right.

- Question Flipper – This feature is perfect for trivia questions or any question and answer activity. This feature shows a question and to reveal the answer you simply click on the question to show the answer.
 1. Open the Gallery feature by clicking on the Gallery Tab.
 2. Type “question” into the search box and click search.
 3. Click on the Interactive Multimedia tab.
 4. Choose Question Flipper 1, by clicking and dragging it onto the page.

5. To edit the text in question flipper click on the double arrow.
6. Type your question in the text box.
7. To type your answer click on the Back tab and type your answer. When you are finished click ok.
